

Eddie Marshall Excavations, Sunshine Coast.

"Eddie Marshall came highly recommended to us by two independent earthmoving businesses who both attended at our property to assess the job we required to be completed.

"When Eddie attended at our property to assess the job, we we're most impressed with his professional approach, his extensive knowledge, expertise and foresight, and when the job was completed it was to perfection.

We had a budget in place and Eddie carried out the job in a timely manner, he never skipped a beat, which resulted in us having all we required and additional work completed.

Eddie, we wish to take this opportunity to thank you very much for providing us with a great service, it has been an absolute pleasure to have worked with you. Visitors' to our property also comment on a job well done.

Without hesitation, we would highly recommend Eddie Marshall to any individual or business owner who require a professional excavator operator".
